# STATISTICS OF WESTERN AUSTRALIA.

## I.—POPULATION AND VITAL STATISTICS.

### METROPOLITAN AREA.

Population, at 31st December, 1941—Males, 107,000; Females, 123,000; Total, 230,000.

Area, at 31st December, 1941—191 square miles.

No. 1.—Population of Western Australia (exclusive of full-blood Aboriginals†) from 1937.

Period.	Estimated Population on last day of period. (a)			Increase during period. (b)	Masculinity. (c)	Mean Population. (a)
	Males.	Females.	Total.			
1937 ....	241,297	215,814	457,111	5,554	111·81	454,295
1938 ....	243,559	218,902	462,461	5,350	111·26	459,977
1939 ....	245,064	222,312	467,376	4,915	110·23	465,042
1940 ....	244,137	224,174	468,311	935	108·91	468,005
1941 ....	242,040	225,042	467,082	—1,229	107·55	467,992
Quarters, 1942—						
First ....	242,832	227,409	470,241	3,159	106·78	468,662
Second ....	242,546	227,844	470,390	149	106·45	470,316
Third ....	242,413	228,258	470,671	281	106·20	470,531

† Estimated Full-blood Aboriginal Population in the State on 30th June, 1941—21,700.

(a) Unadjusted for arrivals and departures of military service personnel. (b) Minus sign (—) denotes decrease.  
(c) Number of Males to each 100 Females.

No. 2.—Arrivals in and Departures from Western Australia from 1937. (a)

Period.	Arrivals.			Departures.			Excess of Arrivals over Departures. (b)		
	Males.	Females.	Total.	Males.	Females.	Total.	Males.	Females.	Total.
1937 ....	12,265	10,306	22,571	11,590	9,971	21,561	675	335	1,010
1938 ....	12,907	10,320	23,227	12,674	10,110	22,784	233	210	443
1939 ....	11,494	9,701	21,195	11,974	9,006	20,980	—480	695	215
1940 ....	8,505	5,780	14,285	11,233	6,752	17,985	—2,728	—972	—3,700
1941 ....	7,750	4,737	12,487	12,067	6,998	19,065	—4,317	—2,261	—6,578

(a) Figures for the war period relate to civilians only. (b) Minus sign (—) denotes excess of departures over arrivals.

No. 3.—Marriages, Births, and Deaths in Western Australia from 1937.

Period.	Marriages.	Births.			Deaths.			Excess of Births over Deaths.	Annual Birth, Death, and Marriage Rate per 1,000 of Mean Population.			Infant Mortality Rate per 1,000 Live Births
		M.	F.	Total.	M.	F.	Total.		Birth Rate.	Death Rate.	Marriage Rate.	
1937 ....	4,169	4,416	4,193	8,609	2,498	1,567	4,065	4,544	18·95	8·95	9·18	37·52

Total (Governmental)	446,710	394,817	490,764	2597763					

(a) These taxes have been superseded by the Commonwealth Uniform Tax, which also includes Hospital Tax which was not previously paid into Revenue. The amount received by the State as its proportion of the Uniform Tax is shown under the heading of "Income Tax—Commonwealth Reimbursement." For the months of July and August only the arrears of tax as collected were credited to the State and the adjustment for the three months was made in September.

(b) Arrears only, Commonwealth Government collected Entertainment Tax as from 1st October, 1942, and reimbursed State Government.

Outside that area the difference in basic wage is to be added. There are also District Allowances for certain localities.

## XV.—METEOROLOGICAL STATISTICS.

(Supplied by the Director of the Commonwealth Weather Bureau, Mr. H. N. Warren.)

### WEATHER NOTES.

#### No. 36.—Notes on the Rainfall and general weather conditions in Western Australia during the Months of October, November and December, 1942.

*October.*—Rainfall in Western Australia was generally well below average, the South Coastal was the only division other than the Kimberleys to record rainfall above normal and this was only 9 per cent. above the monthly mean. In parts of the Kimberleys a few heavy showers brought the rainfall above the average, which for October is only 20 to 30 points. The De Grey, Fortescue, Far East Gascoyne, and North-Eastern Divisions recorded no rainfall during the month.

The northern agricultural area's rainfall was over 30 per cent. below average which, taken in conjunction with the low rainfall during the early part of the season, was unfortunate. On the Norseman-Esperance line some good rains were recorded, Grass Patch having 298 and Salmon Gums 247 points during the month; most of this rain fell in the early part of the month but, notwithstanding, the average for the month was 19 per cent. below normal. The highest rainfalls recorded during the month were at Esperance, Denmark, and Pemberton, with respectively 520, 540, and 732 points.

Generally speaking, as far as temperature is concerned, the summer is approaching rapidly in the north with temperatures above normal in the Kimberleys, but winter is persisting in the south where, for instance, Katanning's mean temperature was two degrees below normal.

Southern depressions, however, showed little intensity compared with the three previous months and, although four distinct southern low pressures affected the south-west of the State, no high winds were recorded at Perth; the maximum gust of 50 miles per hour was recorded on the 2nd of the month from the W.N.W.

One interesting feature of the month's weather was the low pressure of northern origin which affected Perth on the 20th to the 22nd. After the 17th of the month a heat low pressure formed inland from the coast in the Kimberley, De Grey, and Fortescue Divisions. During the 18th and 19th it slowly moved southwards inside the coast to the south of Geraldton. Hot easterly winds were experienced in Perth on the 20th and 21st, when the temperature rose to 80·4 degrees on the 20th. By the morning of the 21st the tip of low pressure was out to seaward of Perth, and heavy rains were anticipated, but the highest rainfall was only 81 points at Donnybrook, Perth receiving none.

Rainfall at Perth was 169 points, falling on 18 days, which is 50 points below average for the month.

The following table gives the respective rainfalls in the various divisions as a whole compared with the respective normals :—

Division.	Mean for October, 1942.	Average Mean for October.	Percentage Departure from Average Mean.

*November.*—A marked shortage in the normal rainfall was experienced in the greater portion of the State. Throughout the Gascoyne and the South-Eastern Divisions, and a large portion of the more northern sections of the North Coastal agricultural region, the rainfall was very light and scattered and in all except a few places in the remainder of the wheat belt the registrations were very light. In the Tropics, however, there were some favoured regions which included the coastal belt between Derby and Port Hedland and the inland district extending from the vicinity of Port Hedland south-eastwards to Nullagine. Hall's Creek with a total of 209 points also fared fairly well. In this more favoured area the highest totals were 336 points at Port Hedland, 233

points at Anna Plains, and 242 points at Marble Bar. The south coast from Cape Leeuwin to Albany also received substantial totals, the principal of which were 207 points at Denmark, 149 at Albany, and 111 at Mt. Barker. In the various districts as a whole, moderate surpluses were reported from the West Kimberley, the East Kimberley, and the De Grey Divisions but all other divisions reported deficits, shortages ranging from 100 per cent. in the Wiluna district to 33 per cent. in the Fortescue Division. As regards actual totals the De Grey Division averaged a rainfall of 125 points and the West Kimberley and East Kimberley 105 points and 143 points respectively, but elsewhere the average amounts recorded were less than 50 points, except in the South Coastal (61 points) and the North Kimberley (58 points). An average monthly total of less than 10 points was reported from the West Gascoyne, the East Gascoyne, the North Coastal agricultural belt, the North Central, and the South-Eastern Divisions.

Perth's total of 35 points was less than half the normal registration for November, but the total rainfall in Perth in the first 11 months of the year amounted to 3,791 points as compared with the normal fall of 3,413 points.

The weakness of the rainfall systems was associated with a lack of the normal seasonal activity of tropical rain storms and this in turn was associated with, on the whole, a lack of sustained high temperatures over the inland divisions.

A slight intensification of tropical rainstorm activity was in evidence on the central north-west coast from the 24th to the 26th November when a willy-willy of slight to moderate intensity was reported. This disturbance, however, soon moved inland and it never developed strong winds or characteristically heavy rainfall.

In the south the rains were associated chiefly with cool changes which followed minor heat waves, one in the second week of the month, and the second early in the third week of the month. The month's temperature distribution was irregular, the most consistent heat being in the far north, Wyndham experiencing 23 days with temperatures of 100 degrees or more and recording 106 degrees on the 11th and the 18th November. Marble Bar's record of 21 centuries was below normal, but 111 degrees were recorded at this station on the 11th, the 14th, and the 16th November. Nullagine also recorded 111 degrees on the 14th. Perhaps the most noteworthy temperature of the month, however, was Eucla's registration of 110 degrees on the 12th November.

In Perth temperatures ranged from 48.4 degrees on the 3rd November to 103.1 degrees on the 28th November.

The following table shows how the rainfall in the various divisions as a whole compared with the respective normals :—

Division.	Mean for November, 1942	Average Mean for November.	Percentage Departure from Average Mean.
	points.	points.	%

*December.*—Rainfall was very scattered, particularly in the north. In the West Gascoyne Division all stations except Winning Pool registered no rainfall. In the North Coastal Division the northern half had very little rain, while in the South rainfall was well above average. Coom-berdale, with 406 points, having the highest. Most of the stations in the South Coastal, Central, Eucla, and Eastern Divisions had rainfall above average, Denmark, with 389 points, having the highest rainfall in the South-West.

During the month there were three main phases of rainfall activity. The first occurred during the first three or four days of the month, when a heat low pressure of northern origin connected with a southerly low pressure system, and rain was brought to an area south of the line running west from Wiluna. The southerly winds following in the rear of this system brought rain to the south-west of the State up to the 5th, Denmark registering the highest daily total of 265 points on the 2nd.

On the 19th a weak low pressure area off the north-west coast made its way inland and developed by the 20th into a typical heat low pressure with small cloud development. By the 21st, it had extended southwards but now had developed quite considerable activity and had brought rain to most of the North Coastal, Central Coastal, North Central, and South Central Divisions. Little rain had fallen in the South Coastal Division by the 21st, but the low pressure connected with a southerly low, and showers extended over the South Coastal Division by the 22nd.

While the southern part of the elongated low pressure joined up with the southern low pressure, the northern part developed to a mild tropical cyclone, bringing 230 points to Broome on the 22nd and 322 points to La Grange on the 23rd.

Temperatures in the State during the first six days of this month were below average. From the 6th to the 17th temperatures were well above average throughout the State, Perth experiencing a heat wave between the 8th and the 15th, having eight daily maximum temperatures over 90 degrees, as follows:—8th, 91·3 degrees; 9th, 95·7 degrees; 10th, 98·2 degrees; 11th, 97·2 degrees; 12th, 98·2 degrees; 13th, 100·5 degrees; 14th, 96·1 degrees; 15th, 101·1 degrees.

The highest temperature in the State, 115 degrees, occurred at Marble Bar on the 17th.

From the 18th onwards the temperatures were below average throughout the State, and despite the heat wave in the middle of the month, Perth's average maximum temperature was only 1·7 degrees above the mean for the month, 81·2 degrees. The average minimum was 1·9 degrees above the mean for December, 60·9 degrees.

Perth's rainfall was 123 points, which was 68 points above the mean. The rain fell in four days.

The following table shows how the rainfall in the various Divisions as a whole compare with the respective normals:—

## No. 44.—Employment.

## A.—FACTORIES. (a)

Index numbers showing the trend in Factory Employment since 1931.

(Base : Mean Employment in 1928-29, viz., 19,799, = 100.)

Year	Jan.	Feb.	Mar.	April.	May.	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.	Annual Mean.
1931	....	....	....	....	....	....	62	60	61	62	63	65	....
1932	....	60	63	67	68	66	64	66	66	67	71	72	67
1933	....	72	73	73	74	70	70	71	73	74	76	78	74
1934	....	78	79	80	81	80	78	80	82	85	86	87	81
1935	....	87	88	87	88	88	88	(a)94	95	97	99	101	93
1936	....	101	102	104	104	104	103	106	106	106	108	109	105
1937	....	110	110	110	109	109	108	106	108	109	111	112	110
1938	....	111	112	114	113	112	111	110	111	111	112	113	112
1939	....	111	112	112	111	112	110	109	108	109	110	111	111
1940	....	110	111	112	111	111	109	107	107	108	109	110	110
1941	....	109	111	112	111	112	113	113	*113	*114	*115	*116	*113
1942	....	*116	*118	*118	*118	*119	*118	†118	†119	†120	†121	†123	†119

(a) It should be noted that there is a break in the continuity of the index-number series between June and July, 1935, owing to the inclusion, from July, 1935, onwards, of certain factories previously not included. This tends to exaggerate the degree of recovery. \* Revised. † Preliminary figures based primarily on Pay Roll Tax Returns.

## B.—RETAIL ESTABLISHMENTS (a).

Index numbers prepared by the Commonwealth Statistician from Monthly Pay Roll Tax Returns. These relate to Employees of Taxable Employers whose principal activity was Retail Trade.

(Base : July, 1941 = 1000.)

Number of Employees—July, 1941	Males.	Females.	Persons.
.....	4,746	4,832	9,578
Month.			
1941—			
July	1,000	1,000	1,000
August	965	1,009	987
September	961	1,026	994
October	967	1,024	996
November	961	1,070	1,016
December	957	1,097	1,028
1942—			
January	901	1,125	1,014

By Authority: ROBERT H. MILLER, Government Printer, Perth.

UNITED STATES DEPARTMENT OF AGRICULTURE

OFFICE OF THE SECRETARY

WASHINGTON, D. C.

February 1, 1917

Dear Sir:

I have the honor to acknowledge the receipt of your letter of January 31, 1917, in relation to the matter of the proposed amendment to the act of August 1, 1914, relating to the control of the export of certain commodities.

I am sorry that I am unable to give you a more definite answer at this time, but the matter is being considered by the Department.

I am, Sir, very respectfully,  
Very truly yours,  
J. B. H. [Signature]

Assistant Secretary

United States Department of Agriculture

Washington, D. C.

Enclosed for you are two copies of the proposed amendment to the act of August 1, 1914, relating to the control of the export of certain commodities.

I am, Sir, very respectfully,  
Very truly yours,  
J. B. H. [Signature]

Assistant Secretary

United States Department of Agriculture

Washington, D. C.

Enclosed for you are two copies of the proposed amendment to the act of August 1, 1914, relating to the control of the export of certain commodities.

I am, Sir, very respectfully,  
Very truly yours,  
J. B. H. [Signature]

Assistant Secretary

United States Department of Agriculture

Washington, D. C.

Enclosed for you are two copies of the proposed amendment to the act of August 1, 1914, relating to the control of the export of certain commodities.

I am, Sir, very respectfully,  
Very truly yours,  
J. B. H. [Signature]

Assistant Secretary

United States Department of Agriculture

Washington, D. C.

Enclosed for you are two copies of the proposed amendment to the act of August 1, 1914, relating to the control of the export of certain commodities.

I am, Sir, very respectfully,
